

APPENDIX A

SELECTED BIBLIOGRAPHY

"Manual for the Use of Strain Meters and Other Instruments for Embedment in Concrete Structures," by R. W. Carlson, Campbell, California, Fourth Edition, 1975.

"Measurement of Structural Action in Dams," by J. M. Raphael and R. W. Carlson, Berkeley, California, James J. Gillick and Co., Third Edition, 1965.

"Temperature Measurement in Engineering," by H. D. Baker, E. A. Ryder, and N. H. Baker, New York, John Wiley and Sons, Inc., 1953, Vol 1.

"Measurement of the Structural Behavior of Norris and Hiwassee Dams," by Tennessee Valley Authority, Division of Engineering and Construction, Aug 1950 (Technical Monograph No. 67).

"Measurements of the Structural Behavior at Fontana Dam," by Tennessee Valley Authority, Division of Engineering and Construction, Jun 1953, (Technical Monograph No. 69).

"Calculation of Stress from Strain in Concrete," by Keith Jones, Engineering Monograph No. 25, Bureau of Reclamation, 29 Oct 1961.

"Preparation and Installation of Special Measuring Instruments," by Tennessee Valley Authority, Engineering and Construction Department, Fontana Dam Division, (Unpublished report), 27 Nov 1945.

"Pressure Cells for Field Use," by US Army Corps of Engineers, Waterways Experiment Station, Vicksburg, Mississippi, Waterways Experiment Station, Jan 1955 (WES Bulletin No. 40).

"Structural Behavior Analysis of Monticello Dam for the Period September 1955 to September 1963," by L. H. Roehm, and Keith Jones, Technical Memorandum No. 622, with Appendixes I and II, Bureau of Reclamation, Sep 1964.

"Comparison of the Measured and Computed Behavior of Monticello (Arch) Dam," by M. D. Copen and J. T. Richardson, Question No. 29, Report 5, 8th Congress on Large Dams, ICOLD, Edinburgh, Scotland, 1964.

"Deformation Measurements of Flaming Gorge Dam," by L. H. Roehm, Proceedings, ASCE, Journal of the Surveying and Mapping Division, Vol 94, No. SU1, pp 37-48, Jan 1968.

"Technical Bulletin Series," Bulletins 16 through 23, Terrametrics Division of Earth Sciences, Teledyne Co., Golden, Colorado, 1972.

"Technical Record of Design and Construction, Glen Canyon Dam and Power-plant," by Bureau of Reclamation, pp 117-138 and 449-453, and p 464, Dec 1970.

"Technical Record of Design and Construction, Flaming Gorge Dam and Power-plant," by Bureau of Reclamation, 1968.

"Strain Meters and Stress Meters for Embedment in Models of Mass Concrete Structures," by H. G. Geymayer, Report No. 1, Summary of Information Available as of March 1967, TR 6-811, US Army Engineer Waterways Experiment Station, Vicksburg, Mississippi, Jan 1968.

"Investigation of Instruments for Measuring Pore Pressure in Concrete - Literature Review and Preliminary Laboratory Tests," by E. E. McCoy and E. C. Roshore, TR No. 6-654, Report 1, US Army Engineer Waterways Experiment Station, Vicksburg, Mississippi, Aug 1964.

"Investigation of Instruments for Measuring Pore Pressure in Concrete - Instruments Installed at Hartwell Dam, Georgia," by E. C. Roshore, TR No. 6-654, Report 2, US Army Engineer Waterways Experiment Station, Vicksburg, Mississippi, Mar 1970.

"Calculations of Deflections Obtained by Plumblines," Electronic Computer Description No. C-114, Bureau of Reclamation, 1961.

"Investigation of Temperature Stresses and Deflections in Flaming Gorge Dam," by L. H. Roehm, Technical Memorandum 667, Bureau of Reclamation, 1967.

"Measured Deformation Behavior of Glen Canyon Dam," by J. T. Richardson, Proceedings, ASCE, Journal of the Surveying and Mapping Division, Vol 94, No. SU2, pp 149-168, Sep 1968.

"Manual of Geodetic Leveling," Special Publication No. 239, Coast and Geodetic Survey, Department of Commerce, Washington, DC, 1948.

"Manual of Geodetic Triangulation," Special Publication No. 247, Coast and Geodetic Survey, Department of Commerce, Washington, DC, 1950.

"The Use and Calibration of Distance Measuring Equipment for Precise Mensuration of Dams," by Kenneth D. Robertson, Report No. ETL-0048, US Army Engineer Topographic Laboratories, Ft. Belvoir, Virginia, Mar 1976.

"Precise Dam Surveys, Los Angeles Flood Control District," by Don F. Keene, ASCE National Meeting on Water Resources Engineering, Los Angeles, California, 21-25 Jan 1974.

"Development of a High Precision Capability for Monitoring Structural Movement of Locks and Dams," by Kenneth D. Robertson, Report No. ETL-0121, US Army Engineer Topographic Laboratories, Ft. Belvoir, Virginia, Sep 1977.

"Report on Monumentation, Techniques, Equipment, and Installation," US Army Engineer District, Nashville, Corps of Engineers, Jul 1974.

"Structural Behavior Measurements on Concrete Gravity Dams," J. A. Rhodes, Question No. 29, Report 7, 8th Congress on Large Dams, ICOLD, Edinburgh, Scotland, 1964.

"Cracking in Norfork Dam," by F. W. Sims, J. A. Rhodes, and R. W. Clough, Journal of the American Concrete Institute, Vol 61, No. 3, Mar 1964, pp 265-285.

"Glotzl Pressure Cells," Bulletin on Terrametrics, by Terrametrics, Inc., Golden, Colorado.

* "Instrumentation Automation for Concrete Structures, Report 1, Instrumentation Automation Techniques", by John Lindsey, et. al., Technical Report No. REMR-CS-5, US Army Engineer Waterways Experiment Station, Vicksburg, MS, December 1986

"Instrumentation Automation for Concrete Structures, Report 2, Automation Hardware and Retrofitting Techniques", by Aubrey Keeter, et. al., Technical Report No. REMR-CS-5, US Army Engineer Waterways Experiment Station, Vicksburg, MS, December 1986

"Instrumentation Automation for Concrete Structures, Report 3, Available Data Collection and Reduction Software", by Brian Currier and M. H. Fenn, Technical Report No. REMR-CS-5, US Army Engineer Waterways Experiment Station, Vicksburg, MS, December 1986

"Transducer Interfacing Handbook," edited by D. H. Sheingold, Analog Devices, Inc., Norwood, MA, 1980.

"Transducers, Sensors, and Detectors," by R. G. Seippel, Reston Publishing Company, Inc., Reston, VA, 1983.

"Instrumentation Fundamentals and Applications," by R. Morrison, John Wiley and Sons, New York, 1984, p. 90.

"Instrumentation and Control Systems Engineering Handbook," by the editors of Instrument Technology, TAB Books, Blue Ridge Summit, PA, 1978.
